25th February 2002 - ICC Power/Sail

23rd July 2016 - ICC Power/Sail (Renewal)

Nautical Miles: 70,000 - 75,000.

From a sailing perspective, I hold a full RYA/MCA Yachtmaster Offshore Certificate and the RYA Ocean Yachtmaster theory qualification, but ex naval navigator, including vhf and long-range radio certificates. I started sailing in 1954 and have been sailing solo since 1963. My

passion for ocean sailing and routing and meteorology is well known, including a gold medal presented to me by both the French and Canadian authorities in 2008 for undertaking this work (free of charge), in taking 60 yachts in both directions from La Rochelle – Quebec – La Rochelle. Known as the Grande Traversée de l'Atlantique, this was part of the festivities celebrating the 400th anniversary of the founding of Quebec. This included taking a number of yachts through the eye of massive hurricane Bertha in real time.

With plenty of free time since residing on the banks of the Firth of Forth, I give back a lifetime's sailing experience to assist boat owners/skippers, etc with any sailing requirements they may have. This can be at any time during the 7-day week and for any duration, from day sailing to passage making, to delivery, whether it is coastal, offshore or ocean if short-handed, etc.

I have met and discussed with many boat owners over the years, who intend to undertake great voyages and a vast percentage are not prepared. My strength is to share my experience to allow owners achieve their ambitions while on passage.

Discretion and confidentiality assured at all times.
